SPECIAL AND PECULIAR ADVANTAGES OF A

MUTUAL BENEFIT POLICY

Which are Not Combined in the Policies of any Other Company.

Large Dividends which are declared and paid ANNUALLY at the end of the first and each succeeding year, so that there are no withheld Dividends to be forfeited in case of death or lapse of the Policy.

Liberal Guaranteed Cash Surrender and other Values indorsed on the Policy, so that the Insured can stop paying Premiums without any loss by forfeitures.

The Insured may stop Premium payments, and take his choice of Extended Insurance in the full amount of the Policy for as long a period as the value of the Policy will pay for **at low term rates,** or of a Paid-up Policy for a reduced amount payable **whenever** death occurs.

The Insured may borrow money (from the Company) on the Policy as per statement indorsed thereon, and thus prevent the lapse of the Policy if he happens to be short of funds, or he may secure a liberal **cash loan** from the Company to meet any sudden emergency.

If the Insured forgets to pay a premium on the day it is due, his insurance is continued in force by the Company **without action on his part.** If he is well, he has ample time to pay up his arrears; while if he is sick, he is protected by his Extended Insurance.

Example of Lapsed Policies Paid in Full.

POLICY No. 109,784, on the life of Mr. Thomas Bennet, of San Francisco, Cal., was issued in 1882, for $5,000, only 10 premiums being paid.

Mr. Bennet died in March, 1894, nearly two years after the lapse of the Policy, which, however, was promptly paid in full—$5,000—by the Company.

This Rule Applies to all Policies, Giving, at Age 35, on the Annual Life Plan

OVER	4	YEARS' INSURANCE FOR	2	YEARS' PREMIUMS;
OVER	10	YEARS' INSURANCE FOR	5	YEARS' PREMIUMS;
OVER	20	YEARS' INSURANCE FOR	10	YEARS' PREMIUMS.

Or Paid-up Policy is issued if preferred.

On other Plans the Value and Extension are very much greater.

SEND FOR SPECIMEN COPY OF THE POLICY

Why run the risk of Tontine forfeiture? or why trust to the uncertainties of the Assessment plan, when you can get ABSOLUTELY NON-FORFEITABLE INSURANCE at the LOWEST NET COST IN **The Mutual Benefit Life Insurance Company of Newark, New Jersey.**

To such as desire insurance with the least possible Cash Outlay the Company offers the privilege of the 30 PER CENT PREMIUM LOAN PLAN.

*Two Years' Dividends.

It should be borne in mind that the Mutual Benefit's policies are all STRICTLY NON-FORFEITABLE, both as to the policies themselves, and as to dividends, which, in the Mutual Benefit, are always declared ANNUALLY so long as the policy continues in force.

Long deferred dividends conduce to extravagant management, and impose great loss on the average membership.

Deferred Dividends are a great help to companies which cannot pay good average dividends, and seek to conceal the fact by paying no dividends for many years and CONFISCATING the dividends of all who drop out of the company in the meantime.
